A cell with a white/clear background has a shooter assigned to that Squad/Post and cannot be changed.
A cell with a ==green background==, select it to assign the shooter to that Squad/Post.
A cell with a ==red background== (HANDICAP Events only), the shooter cannot be assigned due to ATA yardage restrictions.
You need only to select the cell once with your mouse, and the entry will be populated into the Squadding dashboard for you.
To change Squad/Post, Un-squad and then select the new Squad/Post and any options.
While you are deciding which squad/post to select, others participants can be squadding, if you take a long time,
someone else could take the position and you will be notified the the postion is already assigned after you make your selection.
